Contact Tracing
A Confidential Public Health Resource

Contact Tracing is a process used by the Kentucky Department for Public Health to help stop the spread of diseases like COVID-19.

TEAM KENTUCKY NEEDS YOU
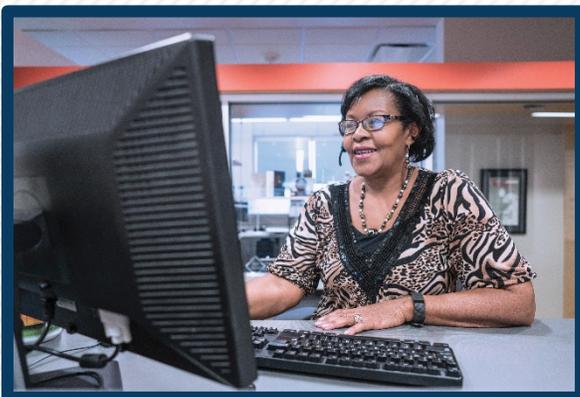

What is Contact Tracing?

Public Health workers reach out to individuals who have contracted COVID-19 to assess their situation and **track any recent in-person contacts**.

Contacts are notified to **provide instructions and connect them to local resources**.

By **following instructions** provided, contacts help **stop the spread** of COVID-19 and **save the lives of Kentuckians**.

What if I am contacted?

✓ Answer Contact Tracing calls

✓ Report information clearly and completely

✓ Work together with Public Health workers

✓ Follow instructions provided
